

What our customers need?

Your experience in the automotive industry – the key to success!

All over the world!

We are one of the most prominent certification bodies for management systems worldwide and a reliable partner for many notable and successful organizations of all sectors and sizes. To suit the demands of our ambitious customers in the automotive industry and in order to support our auditor team, we are currently looking for

freelance ISO/TS 16949:2009 Auditors (f/m)

Tasks

- Planning, conduction, preparation and post-processing of audit services according to ISO 9001 and ISO/TS 16949;
- Compiling of audit reports in Dutch or English;
- Customer retention through quality-conscious, value-generating auditing;
- Leading of the audits on-site.

Profile

- Valid IATF approval (International Automotive Task Force) as a 3rd party auditor for ISO/TS 16949;
Alternatively:
Qualification as a 3rd party auditor for ISO 9001 and six years of relevant experience in the automotive/supplier industry within the last ten years, with at least two of them in quality-relevant processes;
- Designated professional and leadership competencies, interpersonal and communication skills;
- A strong command of English;
- Hands-on attitude, team player;
- Very good user knowledge of the prevalent IT tools.

In addition to an appropriate remuneration system and an attractive offer of in-company trainings you can expect a dynamic team that is eager to foster the success of DQS UL together with you.

Are you interested in collaboration with a world-famous certification body whose name stands for independence and high competence?

We look forward to receiving your application via e-mail to: annemie@dqsbelgium.be

Please attach the following documents to your application: CV, certificates, references of your auditor qualification.
